**PRODUCT DESCRIPTION**

LOCTITE 220 provides the following product characteristics:

<table>
<thead>
<tr>
<th>Characteristic</th>
<th>Specification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Technology</td>
<td>Acrylic</td>
</tr>
<tr>
<td>Chemical Type</td>
<td>Dimethacrylate ester</td>
</tr>
<tr>
<td>Appearance (uncured)</td>
<td>Blue liquid (LMS)</td>
</tr>
<tr>
<td>Fluorescence</td>
<td>Positive under UV light (LMS)</td>
</tr>
<tr>
<td>Components</td>
<td>One component - requires no mixing</td>
</tr>
<tr>
<td>Viscosity</td>
<td>Low</td>
</tr>
<tr>
<td>Cure</td>
<td>Anaerobic</td>
</tr>
<tr>
<td>Secondary Cure</td>
<td>Activator</td>
</tr>
<tr>
<td>Application</td>
<td>Threadlocking</td>
</tr>
<tr>
<td>Strength</td>
<td>Low</td>
</tr>
</tbody>
</table>

LOCTITE 220 is designed for the locking and sealing of threaded fasteners which require normal disassembly with standard hand tools. The product cures when confined in the absence of air between close fitting metal surfaces and prevents loosening and leakage from shock and vibration. Particularly suitable for applications such as adjustment of set screws, small diameter or long engagement length fasteners, where easy disassembly is required without shearing the screw.

**MIL-S-46163A**

LOCTITE 220 is tested to the lot requirements of Military Specification MIL-S-46163A. Note: This is a regional approval. Please contact your local Technical Service Center for more information and clarification.

**ASTM D5363**

Each lot of adhesive produced in North America is tested to the general requirements defined in paragraphs 5.1.1 and 5.1.2 and to the Detail Requirements defined in section 5.2.

**TYPICAL PROPERTIES OF UNCURED MATERIAL**

<table>
<thead>
<tr>

<tr>
<td>Viscosity, Cannon Fenske, ISO 3104, mPa·s (cP)</td>
<td>10 to 30 (LMS)</td>
</tr>
</tbody>
</table>

**TYPICAL CURING PERFORMANCE**

**Cure Speed vs. Temperature**

The rate of cure will depend on the temperature. Full cure is attainable in 24 hours @ 22 °C, or 1 hour at 93 °C.

**TYPICAL PERFORMANCE OF CURED MATERIAL**

**Adhesive Properties**

Cured for 24 hours @ 22 °C

| Breakaway Torque, MIL-S-46163: 3/8 x 16 steel nuts (grade 2) and bolts (grade 5) | N·m | 2.3 to 17.0 (LMS) |
| Prevail Torque, MIL-S-46163: 3/8 x 16 steel nuts (grade 2) and bolts (grade 5) | N·m | 10.1 to 28.2 (LMS) |

Cured for 15 minutes @ 22 °C

| Breakaway Torque, MIL-S-46163: 3/8 x 16 steel nuts (grade 2) and bolts (grade 5) | N·m | 1.1 to 17.0 (LMS) |
| Prevail Torque, MIL-S-46163: 3/8 x 16 steel nuts (grade 2) and bolts (grade 5) | N·m | 1.1 to 28.2 (LMS) |

**GENERAL INFORMATION**

This product is not recommended for use in pure oxygen and/or oxygen rich systems and should not be selected as a sealant for chlorine or other strong oxidizing materials.

For safe handling information on this product, consult the Material Safety Data Sheet (MSDS).

Where aqueous washing systems are used to clean the surfaces before bonding, it is important to check for compatibility of the washing solution with the adhesive. In some cases these aqueous washes can affect the cure and performance of the adhesive.

This product is not normally recommended for use on plastics (particularly thermoplastic materials where stress cracking of the plastic could result). Users are recommended to confirm compatibility of the product with such substrates.

**Directions for use:**

**For Pre-assembled Threaded Parts with Thru Holes**

1. Prior to assembly, clean all threads (bolt and hole) with a LOCTITE® cleaning solvent and allow to dry.
2. **For Thru Holes**, apply several drops of product at screw and body juncture.
3. Avoid touching the bottle tip to the metal surface.
4. This product is not recommended for pre-assembled threads in a blind hole.

**For Disassembly**

1. Remove with standard hand tools.
2. Where hand tools do not work because of excessive engagement length or large diameters (over 1"), apply localized heat to approximately 250 °C. Disassemble while hot.

For Cleanup
1. Cured product can be removed with a combination of soaking in a Loctite solvent and mechanical abrasion such as a wire brush.

Loctite Material Specification
LMS dated September 01, 1995. Test reports for each batch are available for the indicated properties. LMS test reports include selected QC test parameters considered appropriate to specifications for customer use. Additionally, comprehensive controls are in place to assure product quality and consistency. Special customer specification requirements may be coordinated through Henkel Quality.

Storage
Store product in the unopened container in a dry location. Storage information may be indicated on the product container labeling.

Optimal Storage: 8 °C to 21 °C. Storage below 8 °C or greater than 28 °C can adversely affect product properties. Material removed from containers may be contaminated during use. Do not return product to the original container. Henkel Corporation cannot assume responsibility for product which has been contaminated or stored under conditions other than those previously indicated. If additional information is required, please contact your local Technical Service Center or Customer Service Representative.

Conversions
(°C x 1.8) + 32 = °F
kV/mm x 25.4 = V/mil
mm / 25.4 = inches
µm / 25.4 = mil
N x 0.225 = lb
N/mm x 5.71 = lb/in
N/mm² x 145 = psi
MPa x 145 = psi
N·m x 8.851 = lb·in
N·m x 0.738 = lb·ft
N·mm x 0.142 = oz·in
mPa·s = cP

Disclaimer
Note:
The information provided in this Technical Data Sheet (TDS) including the recommendations for use and application of the product are based on our knowledge and experience of the product as at the date of this TDS. Henkel is, therefore, not liable for the suitability of our product for the production processes and conditions in respect of which you use them, as well as the intended applications and results. We strongly recommend that you carry out your own prior trials to confirm such suitability of our product. Any liability in respect of the information in the Technical Data Sheet or any other written or oral recommendation(s) regarding the concerned product is excluded, except if otherwise explicitly agreed and except in relation to death or personal injury caused by our negligence and any liability under any applicable mandatory product liability law.

In case products are delivered by Henkel Belgium NV, Henkel Electronic Materials NV, Henkel Nederland BV, Henkel Technologies France SAS and Henkel France SA please additionally note the following:
In case Henkel would be nevertheless held liable, on whatever legal ground, Henkel’s liability will in no event exceed the amount of the concerned delivery.

In case products are delivered by Henkel Colombiana, S.A.S. the following disclaimer is applicable:
